

Join the Fun with the Larkfield Amateur Radio Club!

The Larkfield Amateur Radio Club is based in western Suffolk County Long Island, New York. We support a host of amateur radio activities including several local amateur radio repeaters that have weekly nets.

The club provides support for the Huntington RACES public service group that works closely with Huntington Hospital and the Towns Emergency Operations Center. We have monthly in-person meetings, and a Holiday party in December. Our 24-hour Field Day in June is quite an event!

Come on down to one of our monthly meetings, we would be glad to meet you!

Huntington 147.210* and Hauppauge 145.430 repeaters are linked.
Extending Larkfield's RF coverage from the NYC border to Route 112 in Suffolk.

Frequency	Offset	Tone Up/Down	Location	Callsign	Notes
